## EXAMINER'S AMENDMENT

The application has been amended as follows:

### IN THE SPECIFICATION:

In the clean copy of the substitute specification dated February 14, 2005, paragraph [005] was deleted in its entirety and replaced with the following:

--[005] A device for the correctly registered alignment of a rubber blanket on a cylinder of a printing group is known from USP 4,707,902. Clamping devices, which are arranged in a groove and which can be actuated by a bracing spindle, can be axially displaced via a manually adjustable threaded ring or by an adjustment screw.--

The above change was made to correct an obvious typographical error previously pointed out in item 6 on page 3 of the Ex Parte Quayle Action dated August 20, 2007.
